

Security Doors

Our keylocked steel security doors allow front access to a select portion of rackmount equipment and are available in plexiglass, vented, and solid steel styles. Mount equipment which needs to be secured behind the solid door to keep unauthorized users from tampering. Keep equipment which needs to be client accessed in the open portion of the rack. Works as a full door on our [RV/BRK](#) series racks as well.

| SECL-2 | 3-1/2" (2 space) |
| SECL-3 | 5-1/4" (3 space) |
| SECL-4 | 7" (4 space) |
| SECL-8 | 14" (8 space) |

Perforated Security Covers

Eliminate the prospect of any tampering with these tough security covers. Offered in large or fine perforation styles (models S and SF respectively), each cover is 1" deep. Includes installed rubber edging that won't mar the equipment you're trying to protect. To enhance the level of security, use our security rack screws.
