#### Overview

#### Specs

#### Documentation

#### Application Notes

#### Description

The CMC Series resistors are exceptionally stable and versatile. The anodized aluminum housing provides durability to withstand shock, vibration and harsh environmental conditions. It also offers heat-sinking capabilities and chassis mounting options. The terminals are copperweld, tinned with axial leads. Made to MIL-R-18546 standards, the CMC series provides durability with superior power ratings.

**Note:** Not suitable for high frequency applications.

#### Features

##### Features

- ? All molded and welded construction
- ? Screw mounts on chassis surface
- ? Heat-sink capability
- ? Protection against extreme environments
- ? Exceeds MIL-R-18546 standards

#### Potential Applications

##### Potential Applications

- ? Harsh environments
- ? High temperature
- ? Load adjustors for power amplifiers
