Documentation

Application Notes

Description

The VC Series resistors are low cost, high quality, axial-lead resistors. The resistors have a ceramic core with a conformal vitreous enamel coating. Each resistor is clearly marked with resistance value and tolerance. Its small size makes it excellent for circuit board, point-to-point or terminal applications. The VC series is made in accordance to MHR-26 standards and is ideal for today's technology.

Note: Not suitable for high frequency applications.

Features

Features

- ? Rugged vitreous enamel
- ? All-welded construction
- ? Low cost
- ? Uniformly tinned leads
- ? Meets or exceeds MIL-R-26 standards

Potential Applications

Potential Applications

- ? Circuit boards
- ? Terminal boards
- ? Automated circuit board population
- ? Point-to-point wiring
- ? Load adjustors for power amplifiers
